Friday 13<sup>th</sup> March 2026

This week, the children have been busy making something special for their Mummies for Sunday! We have some new pebbles, pots and bowls in the sandpit, so the children have been making sand mixtures, rivers and dams.

At Mells Nursery, we believe that children should have ownership for their learning. In their creativity, this means that children's art will not look the same as every other child's. Every child is unique, just like the art they create. Just look at what children can do, as they talk about their mummy's and what their mummy's do. These marks are special because they belong to your children and show that its true "Every Child is an Artist" - Pablo Picasso.

This is an interesting article from our website - [THE LITTLE BOY By Helen E. Buckley](#)

## Chickens and Ducks!

After Easter, we will be putting some eggs in our incubator to hatch. We will be hatching them for a local farmer, but if any of you are thinking about getting your own chickens or ducks please let us know and we could hatch them for you.

The children have been performing their own puppet shows outside on the stage.
