Friday 20th March 2026

This week we have spent a lot of time outside. The children have been mixing their own mud paint and using it to paint and create patterns. We went for a walk to 'Dingly Dell', we ran across the field to get there and saw some horses on the way.

On Wednesday we went to Mells School for a session all about our bodies and keeping healthy. We met a lady called Katrina and her giraffe called Harold. Thank you, Mells School, for inviting us.

Scarlet fever

We have had a case of Scarlet Fever at Nursery. Scarlet fever is a contagious infection that mostly affects young children. It's easily treated with antibiotics. Children can return to Nursery 24 hrs after starting appropriate antibiotics, if they are feeling well.

Here is a link to more information about Scarlet Fever – [NHS Scarlet Fever](#)

We have now set up our willow teepees in the garden as our quiet, outdoor reading area.
